SAFETY INSTRUCTIONS FOR PRODUCTION OF PCB

In connection with production of PCB, please follow these instructions:

- Make sure that the suction has been started.
- Avoid inhalation.
- Avoid skin contact with the liquids.
- Avoid spillage.
- Avoid mixing the liquids.
- Use safety gloves.
- Perhaps use protective clothing.
- Keep the room nice and clean.

In case of accident:

- If you get something in the eyes, then use the available eye rinser or rinse eyes with running water.
- If spilling liquids, rinse with water and wipe up immediately.
